Lead Detection

Details

- EPA recognized on painted wood, metal, plaster or drywall
 - Detects lead down to 600 ppm
 - Test confirmation card to verify results in every kit
 - Contains 48 ready-to-use disposable swabs that turn red when lead is found
 - Test for lead on surfaces such as: painted surfaces, steel structures, vinyl and other plastics
- 3M™ LeadCheck™ Swabs are disposable, convenient and simple to use. The entire test typically takes about 30 seconds. Just swab virtually any surface or material. If the swab turns red, lead is present. RED MEANS LEAD™!

3M™ LeadCheck™ Swabs are EPA recognized, non-toxic and provide a rapid test for lead on most surfaces. When lead is detected, 3M™ LeadCheck™ Swabs turn red on contact. The vast majority of test situations results are obtained in less than 30 seconds. Simple to use: just crush, shake and swab. RED MEANS LEAD™! Each kit contains test confirmation cards to verify individual test results. 3M™ LeadCheck™ Swabs provide instant lead-detection results for quick and accurate job pricing. In just seconds, you will know if lead-safe practices are required. Test for lead on surfaces such as: painted surfaces, steel structures, vinyl and other plastics.
