D-LEAD® LEAD PAINT TEST KIT

SKU: PTKIT

The D-Lead® Lead Paint Test Kit quickly determines if lead based paint is present.

– Test results in minutes.
– No additional time is required to detect lead chromate commonly found in red yellow, orange and green paints.
– Small 3/16″ sample required. Sampling tool provided improves precision clean up.
– D-Wipe® Prep Towels (included) reduce the chance of contamination of samples.
– *The most accurate test for lead in paint according to testing by the EPA's ETV Program.*

Detects the presence of lead and lead chromate coatings on:

- Structural steel
- Aluminum
- Concrete
- Brick
- Stucco
- Sidings
- Bridges
- Water towers
- Ships, docks & shipyards
- Gas storage tanks
