

SMMCS1010- Installation

A. What is included in the box

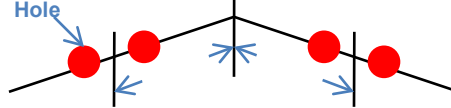

1. Corner Shelf
2. Mounting Hardware
(Guard Frame Set, Mounting Brackets, Plastic Ribbed Anchors, Bolts)

B. Installation

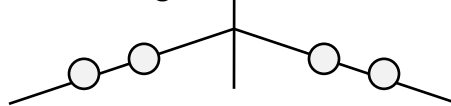

1. Select the corner you wish to have your shelf. Draw a horizontal line and mark both sides of the wall.

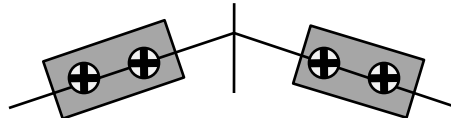

2. Center of the mounting bracket should be 4-7/10" away from the corner. Drill a hole (1/4" x 1-3/8" Length) using the mounting bracket.

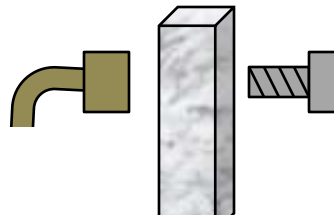

3. Insert the plastic ribbed anchor using a hammer.

4. Secure the bracket with the screw. *Important - Orientation of the bracket - When installing the bracket, built-in bolt in the bracket should be facing down.

5. Secure the guard frame bar to the corner shelf with bolts.

6. Insert the corner shelf to the bracket and tighten the built-in bolt located under the bracket to complete the installation.
