

## FEATURES

**Dimmable**  
Yes

**Certification**  
UL

- Wireless RF control for an easy, no wire installation
- Great for DIY installations
- Up to 4 zones per switch with easy push button pairing to the Quattro Dimming Receivers
- Unlimited receiver locations per zone with DC12-36V receiver input and output
- Multiple switches per zone for easy 2, 3, or 4 way control
- Can be ganged with AC120-240V switches or outlets saving space, simplifying electrical layout and drastically reducing labor and material costs
- Up to 100' of wireless operation, even through obstacles like walls
- Detachable face for easy handheld remote operation and battery changing
- Low cost, long life lithium 3V battery for up to 10 years of operation

## SA40586

**Quattro 4 Zone Wall Controller** - With Quattro, building a smart home is easier than ever before. With two innovative, simple to use products, you can have full control of all your lighting in no time at all. Now you can control your lights with more than one controller as separate areas and as though they were connected! Have you ever wanted to control lights in two or more areas without the need to pull or run wires? The Quattro system does exactly that! It lets you individually control different zones independently or in a group. The Quattro system uses a strong RF signal that is able to travel through trees, buildings or glass, and can be used up to 100 feet away. Plus, with our integrated smart phone app, you'll be able to control everything from the palm of your hand. Controlling your lights has never been so easy! This battery powered, wireless wall unit will control four zones by simply pairing it to Quattro Dimming Receivers. This unit can also be detached from the wall plate and used as a mini remote.

## SPECIFICATIONS
