sensio

FEATURES

Wattage
1.65

Connector
ML

Dimmable
Yes

Lifespan
50,000 hours

Certification
UL

- The fitting is supplied with a collar and can be either surface or recess mounted
- Aluminum finish available with either cool white or warm white LED - great for both contemporary and traditional kitchens
- High Definition LED – each diode has a lens over it to intensify the light output
- Use as task lighting under cabinets or to illuminate cabinet interiors of glass cabinets
- Over 90% less energy used when comparing to halogen - save money on electricity bills when switching from halogen to HD LED
- Long lamp life - lasts up to 28 years more than halogen
- Can be used with the range of Sensio switches and dimmers

SA9013FR

HD LED Recess/Surface Light - This discreet HD LED fixture has 24 super bright LED diodes and can be surface mounted with included aluminum ring, or flush mounted. Our High Definition (HD) LED lights have a lens over each diode to make the light more intense. The frosted lens cover diffuses the individual diodes for an effect similar to a halogen or fluorescent light. The convenient design allows this fixture to tuck out of the way or be mounted on almost any flat surface. The solid aluminum construction assures years of enjoyment. The long life span of 50,000 hours provides years of maintenance-free lighting. Extremely low power usage allows for many hours of guilt-free task or display lighting, and does so without generating excessive heat. The SA9013FR can also be used with Sensio's dimmable driver which enables you to dim the puck lights using standard wall dimmer switches. Available in cool white or warm white light with an aluminum finish.
