

2019 COLLECTION

MAKE IT WONDERFUL

**FRANKE**

# OVER 100 YEARS

## PIONEER OF STAINLESS STEEL

In 1911, Hermann Franke, an industrial pioneer, passionate entrepreneur and gifted craftsman, founded a sheet metal business in the small Swiss town of Rorschach. His **pioneering work in stainless steel** set the stage for more than a century of innovation and worldwide success and established Franke as the global leader in smart systems for home kitchens.

## 1939

## CHALLENGES DURING WARTIME

Following Hermann Franke's sudden death in 1939, son **Walter Franke assumed company leadership**. During World War II, Franke met the challenge posed by the scarcity of raw materials by developing the **first standardized home kitchen design**, which allowed sinks to be made using less labor and raw materials and with a manufacturing process that no longer required each element to be produced individually.

## POST-WAR YEARS: BOOM TIME

With the post-war construction boom came a growing demand for sinks, and Franke **began exporting to European countries**, including Austria, Belgium, Italy, Germany, the Netherlands and Sweden and eventually to the United Kingdom. By 1961, business growth required expansion of the company's Aarburg, Switzerland, headquarters and its workforce grew to 750 employees.

# 1972

## COMING TO AMERICA

From the time they met on a train in 1941, Walter Franke, an engineering and manufacturing expert, and Willi Pieper, a sales and finance whiz, had entered many successful ventures. In 1972, the company gained global recognition by supplying a **commercial kitchen system in McDonald's** in Munich, Germany. During that period, Walter Franke, coping with failing health, passed the reigns of leadership to Pieper, who **led the company into the U.S. market** by acquiring a Philadelphia kitchen systems company.

# 2019

Today, Franke is the largest stainless steel sink manufacturer in the world, with 10,500 employees on six continents.

# NEW & EXCITING PRODUCTS

5

A **fireclay sink** that lets you choose which apron front to install. A **kitchen workstation** with an array of essentials built in. Exciting **new features** for a favorite sink. And a filtration tap with a **cleverly designed filter** that's installed right on the faucet. These are a few of the exciting additions to Franke's kitchen collection for 2019. Take a look and see how Franke can help you make your kitchen wonderful.

# CULINARY CENTER

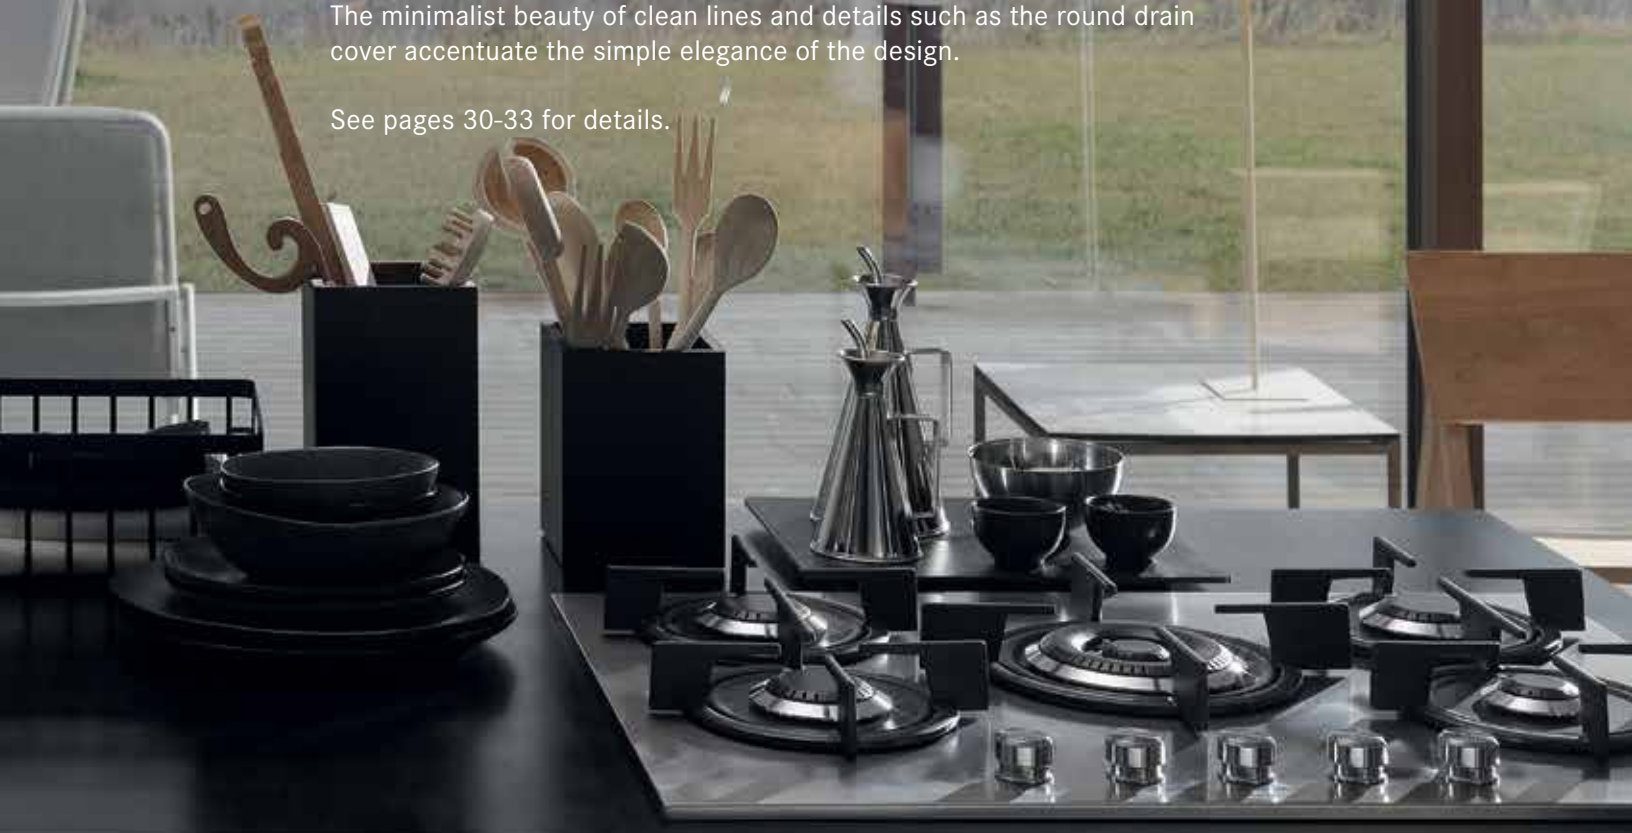

## COMPACT AND CONVENIENT

Whether it's breakfast on the run or a gourmet dinner for friends, the new Culinary Center makes meal preparation and cleanup a breeze. No more cluttering your cupboards with bulky cutting boards and colanders. No more rummaging through drawers for your favorite knife. With Culinary Center these cooking essentials are always at hand when you need them and neatly tucked away when you don't.

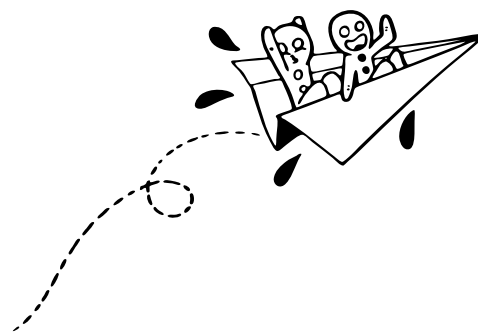

## MINIMALIST BEAUTY

The Culinary Center's appeal extends beyond its innovative practicality. The minimalist beauty of clean lines and details such as the round drain cover accentuate the simple elegance of the design.

See pages 30-33 for details.

# PERFECTLY ORGANIZED

## A PLACE FOR EVERYTHING

Think of it as the Swiss Army knife of kitchen workstations. The double-sink Culinary Center features **essential accessories** built right into the sleek design. When tasks are complete, everything stores neatly into this **well-thought-out system**.

## DESIGNED FOR THE WAY YOU WORK

The Culinary Center's two cutting boards, colander and draining rack are easily removed and positioned to fit the workflow that's most efficient for you. Rinsing, draining, chopping, dicing and slicing are a snap when **the right tools are at hand**.

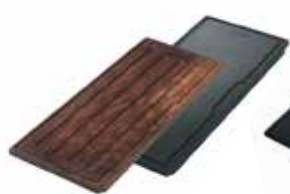

## DETAILS MATTER

The Culinary Center features dual sinks, both with easy-to-reach corners. The custom-fitted accessories compartment allows you to dry and store the tools you use most so they're ready when you need them. At the end of the day you'll have a **neat and organized kitchen workstation** with everything in its place.

See pages 30-33 for details.

# ORCA 2.0

## MODERN EDGE

Franke introduces the second generation of Orca – Orca 2.0. **This generously sized sink** is not only larger than its predecessor, but also features an updated design with a modern edge.

## ENHANCED PERFORMANCE

Orca 2.0 has **more than a new look**. We've added a shelf grid, roller mat and wire basket that fit the integral ledge and enhance your workspace's performance.

## WELL-LOVED ACCESSORIES

Complete your Orca 2.0 workstation by adding a solid wood cutting board, a stainless steel colander and a universal roller mat to **make every meal you prepare effortless**.

See pages 68-71 for details.

Pictured: ORX2110-CA sink with FF3350 faucet

Pictured: FH2K710-33WH sink with FF7000A faucet

# FARM HOUSE FIRECLAY

## FREEDOM OF CHOICE

One finely crafted fireclay sink. Two stunning design options. Franke's new Farm House fireclay sinks are designed with **two distinct apron front styles**: a smooth front for a more traditional look and a fluted side to add texture to the look. You choose the side to install for the look that fits your kitchen style.

## EASY CARE

It's easy to maintain the beauty of your Franke Farm House fireclay sink. A dirt-repelling finishing polish **allows stains to be wiped away** with soap and water.

See page 100 for details.

# PROFESSIONAL OUTDOOR

## OUTDOOR STYLE

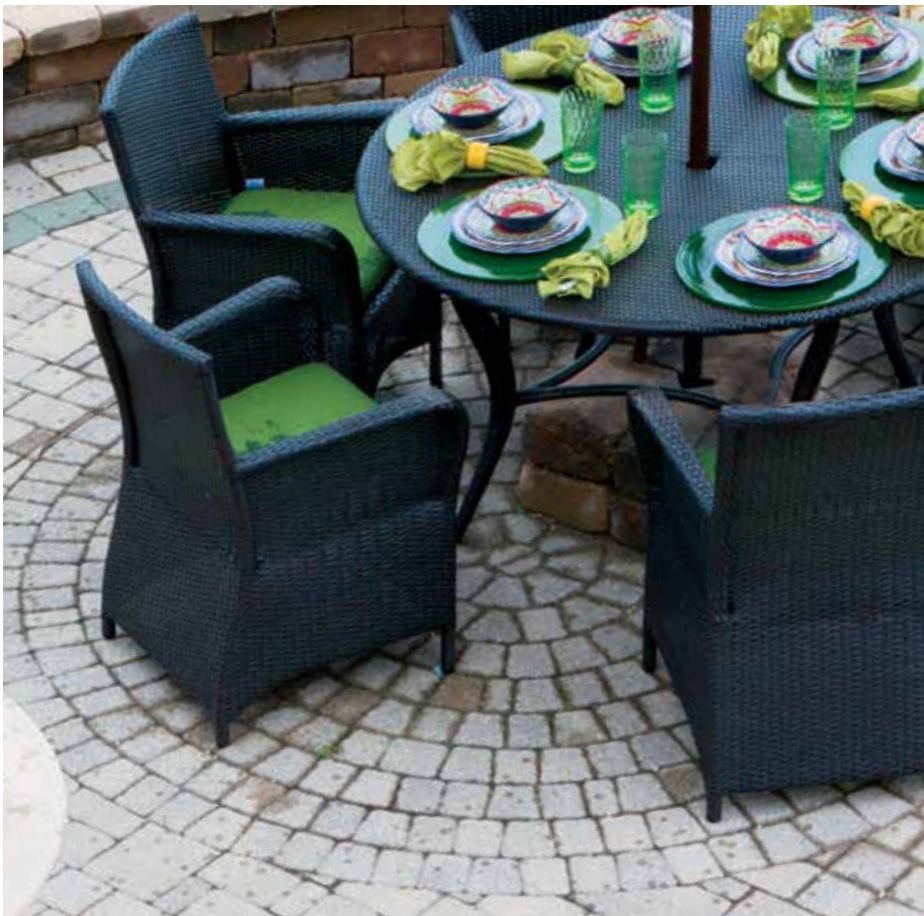

Whether your preference is for casual backyard barbecues or elaborate summertime soirées, your outdoor kitchen workspace requires a sink that stands up to the elements and enhances your entertaining style. Professional Outdoor is designed with the **attention to detail and quality** that is the hallmark of Franke products.

## WEATHER RESISTANT

Manufactured with high-grade, **18-gauge T316 stainless steel** – the most corrosion resistant grade available – Professional Outdoor can handle rain, cold, snow and heavy use. The simple styling of this undermount design features angled interior lines to promote better draining and help keep your sink clean. Pair it with the weather-resistant Cube faucet, also made of 18-gauge T316 stainless, for an outdoor kitchen that will **retain its beauty and integrity for years**.

Note: It is recommended to cover sink in the winter to prevent ice build up. Ice may damage the bowl by expansion.

See page 51 for details.

# PURUS FILTRATION

## THE EASIEST WAY TO ENJOY CLEAN WATER

Thanks to its **patented filter technology**, the Franke Clear Water Capsule System cleans water simply, quickly and reliably. Developed in Switzerland, easy to use and impeccably designed, it's the **most advanced water filter system in the world**. For the most wonderful tap water you've ever tasted.

## CONVENIENT & EASY TO USE

The system is so compact that **no filter installation under the sink is required**. Simply order capsules and enjoy superb water day after day.

## HYGIENIC & SAFE

The flow of water from the filter straight into the glass and the combination of **activated carbon** and a **high-tech membrane** ensure supreme water quality. The filter removes bacteria, viruses, pesticides, hormones and microplastics. Not only does tap water taste better, it is also much healthier.

## STYLISH & ICONIC

The Purus faucets with the Franke Clear Water Capsule System look stunning in any kitchen: an **iconic design, space-saving** and available in various designs and colors.

## FILLED WITH MANY ADVANTAGES

- Reduces 99.9999% of bacteria\*
- Reduces 99% of viruses\*
- Filters out rust and sediments
- Filters out microplastics
- Removes odors and improves taste
- Filters up to 132 gallons

See pages 136-137 for details.

\*Restrictions apply for the States of California, Iowa and Wisconsin

# PURUS FILTRATION

## A LITTLE WONDER

Our water filter is not only the **smallest in the world**, but is also the first to combine activated carbon with a bionic membrane. Modelled on nature; developed in Switzerland.

### 1. PRE-FILTER

The pre-filter is the first line of defense, **eliminating coarse contamination**. Larger particles are filtered out and retained.

### 2. MEMBRANE

**Nanotechnology** makes it possible: the 0.06 mm thick membrane, enclosed in a fine nylon mesh, even filters bacteria from your drinking water.

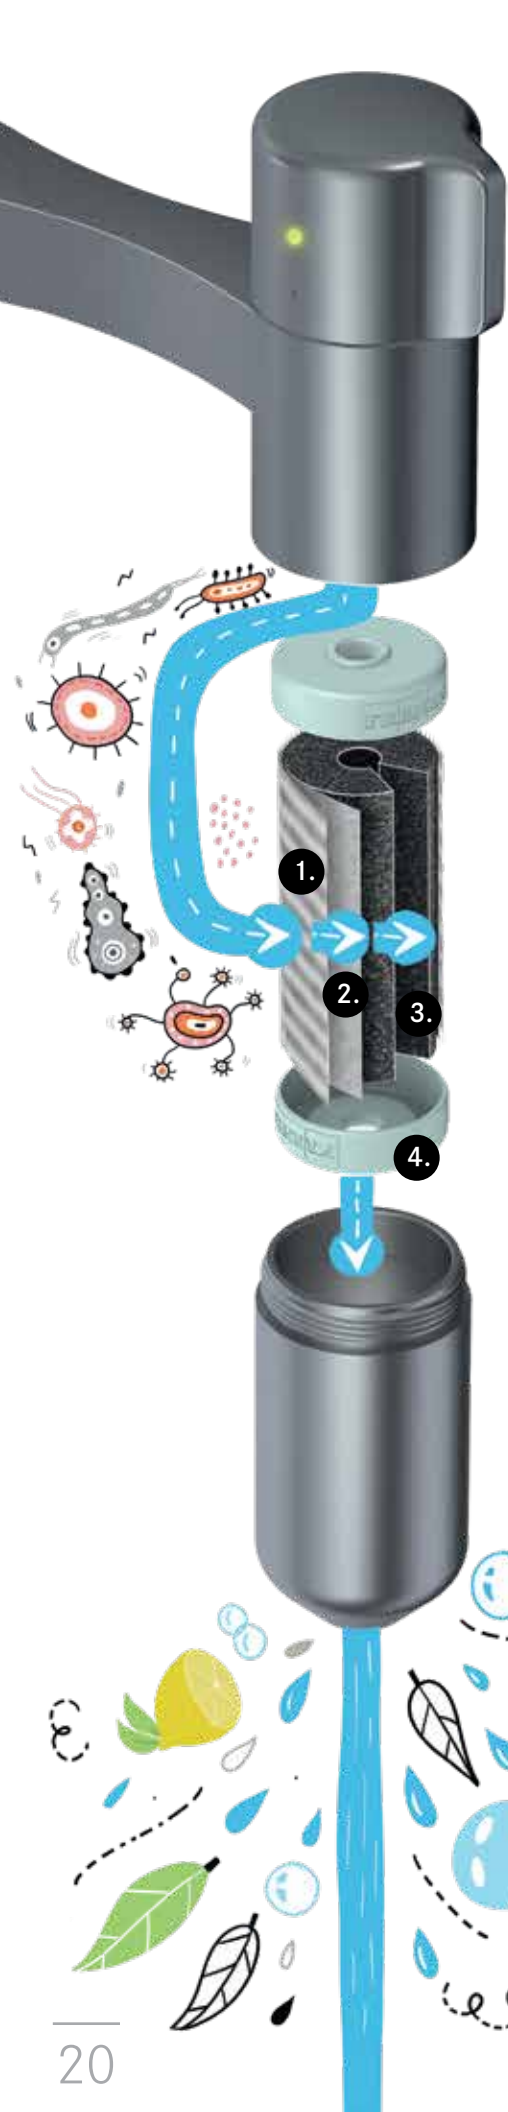

### 3. ACTIVATED CARBON FILTER

Activated carbon **removes impurities**. The underlying technology is a natural physical process that has been proven over decades.

### 4. WATER FLOW

First through the pre-filter, then through the membrane, finally through the activated carbon and filtered straight into the glass. Our patented filter technology prevents filtered and unfiltered water crossing each other's path.

See pages 136-137 for details.

Pictured: FF4250 faucet with DW5600 filtration faucet

#### WHERE THE MAGIC HAPPENS

The best water filter in the world is also the smallest. That's something of a marvel given what's inside. It is the **first system ever to combine activated carbon with a high-tech membrane** and turns **132 gallons** of tap water into pure refreshment.

#### REORDERING

When the LED light turns red on the faucet, the filter has to be changed.

# PROFESSIONAL FAUCETS

## WORK LIKE A PRO

Now serious home chefs can have the same faucets used by the pros. Franke's Professional series faucets feature a **360-degree swivel**, **one-handed operation** and a **powerful pull-down spray**, giving you the flexibility to prep, cook and clean. For pure water right from the tap, choose the FFPD5400 **all-in-one filtration faucet**.

See pages 132-133 for details.

Pictured: FFPD5400 faucet

FF5300

FFPD5300

FFPD5400

# PEAK FAUCET

## MODERN DESIGN STATEMENT

The **clean lines** and **metropolitan elegance** of the new Peak faucets demonstrates that design and function can hold equal status in your kitchen. Pair this semi-pro pull-down faucet with a Peak granite or stainless steel sink, for a kitchen that works and looks the way you want it to.

See page 153 for details.

# KUBUS FAUCETS

## SIMPLY BEAUTIFUL

Like the Kubus family of sinks, the new Kubus faucets bring a strikingly simple design to your kitchen while offering **a host of useful features** including a cleverly designed pull-down spray. When work is complete, the hose neatly retracts. The inclined design is the perfect height for large pots.

See pages 172-173 for details.

# WHY FRANKE STAINLESS STEEL?

Stainless steel is the material most frequently used for sinks, and the most popular countertop for commercial kitchens. As one of the world's largest buyers of stainless steel for kitchens, we have perfected its evolution over decades to bring you unique quality.

## WHAT MAKES IT SO SPECIAL?

A classic material that can handle any temperature, is very hygienic and offers a timeless aesthetic.

**Corrosion-proof:** premium quality chrome nickel steel makes sinks highly resistant to staining, rust and corrosion

**Pore-free:** naturally hygienic

**Self-regenerating:** stainless steel surfaces develop a passive protective layer that continuously renews, so your sink is easy to clean and care for

**Durable:** temperature and acid resistant

**Environmentally-friendly:** 100% recyclable

## CHOOSING THE IDEAL GAUGE

The standard gauge describes the thickness of a metal sheet, on a scale from 8 to 30. The lower the number, the thicker the metal sheet. The thicker it is, the less it can be bent or dented and the quieter it is in use. But if too thin, it becomes impossible to produce a sink from a single sheet of metal. So we take great care when choosing the right standard gauge for our sinks:

- Deep-drawn sinks in full size have a standard 18-20 gauge
- Hand-made sinks have a standard 16-18 gauge
- Smaller accessory bowls are standard gauge 18-22

# ORCA 2.0

For home chefs who want a **roomy sink** that will accommodate large cookware and big tasks, Orca 2.0 is not only spacious, but also has several optional accessories such as a **shelf grid**, **roller mat** and **wire basket** that fit the **integral ledge** for enhanced performance. Gentle curves and a **rear drain** with a smooth round cover create easy-to-clean surfaces and enduring visual appeal.

# CONCERTO

Enjoy Franke's **flawless finish and generously sized** 18 gauge, 9-inch deep bowls in the Concerto family. Versatile and adaptable, equally at home in the kitchen or hospitality area, the Concerto offers a hand fabricated look at a more moderate price. Concerto undermount models feature classic crease lines for understated elegance, slim, sleek proportions with narrow partitions and trim, easy to clean corners. These models are efficiency at its best, with rear placed drains for more flat surface in the bowl, and more storage below.

# FIRECLAY SINKS

Manor House	92-95
Farm House	96-101
Cisterna	102-103

# WONDERFULLY ELEGANT FIRECLAY

The perfect blend of nature and design, fireclay is made of liquid ceramic which is then fired to create a material that feels incomparably smooth and is tremendously hard-wearing. Whether you prefer classic or modern design, you will simply love the delicate shapes and expressive colors of our Fireclay sinks.

## HOW YOUR FIRECLAY SINK IS MADE

Liquid ceramic consisting of quartz, china clay and kaolin is injected into a mold under high pressure. Prior to drying, surface imperfections are smoothed with soft sponges and a level surface is created with water. The final drying process involves 20 hours in a tunnel kiln at 2200° F. At every stage, each sink is subjected to stringent quality checks performed by experts to make it wonderful.

### A LIFETIME OF SERVICE

Fireclay is entirely natural, very stylish and amazingly practical. We apply a dirt-repellent finishing polish which means that any mess, tea or red wine stains can simply be wiped with a little soapy water.

### SILKY SMOOTH GOOD LOOKS

Fireclay sinks combine beautifully with a variety of work surfaces such as wood, glass and granite. It's a durable choice that stands up to heat, staining and impact with ease.

### VILLEROY & BOCH

Many handcrafted Franke Fireclay sinks are designed in partnership with Villeroy & Boch, a world-renowned premium porcelain and ceramic producer since 1748. Together, Franke and Villeroy & Boch create distinctive designs that enhance your personal kitchen style.

# MANOR HOUSE

Villeroy & Boch brings centuries of excellence to the handcrafted beauty of Manor House **apron-front** sinks. **Scratch-resistant** and **hygienic** fireclay offers the qualities most desired in today's kitchens.

Note: color may vary between series.

# GRANITE SINKS

Peak	108-113
Orca	114-115
Kubus	116-119

# COLOR YOUR KITCHEN WITH GRANITE

Sinks made of granite are particularly elegant and bring a natural look into your kitchen. Our processed granite has a subtle shine and feels warm to the touch. The surface is finely textured but not porous, ensuring a high standard of hygiene. Composed of 80% quartz sand and 20% hard acrylic resin, Franke's hard-wearing granite gives you a lifetime of beauty.

## WONDERFUL FOR ACTIVE FAMILIES

Kitchens need to be free from bacterial odors, and kitchen sinks need to be free from biofilm, a slimy buildup of bacteria that adheres to surfaces. Thanks to the Sanitized® hygiene function, Franke is recognized as a pioneer in the development of granite compounds for sinks. Sanitized® reduces the growth of microbes on the granite material. At the same time, the granite remains resistant to stains and can withstand high temperatures up to 536°F.

## OUR SANITIZED® MATERIAL

The Sanitized® hygiene function in Franke's granite sinks helps to keep sink areas clean and reduces the growth of biofilm and bacterial odors on the material, providing excellent protection every day. That means less work, giving you more time to enjoy the things you love and the peace of mind in knowing your kitchen is clean.

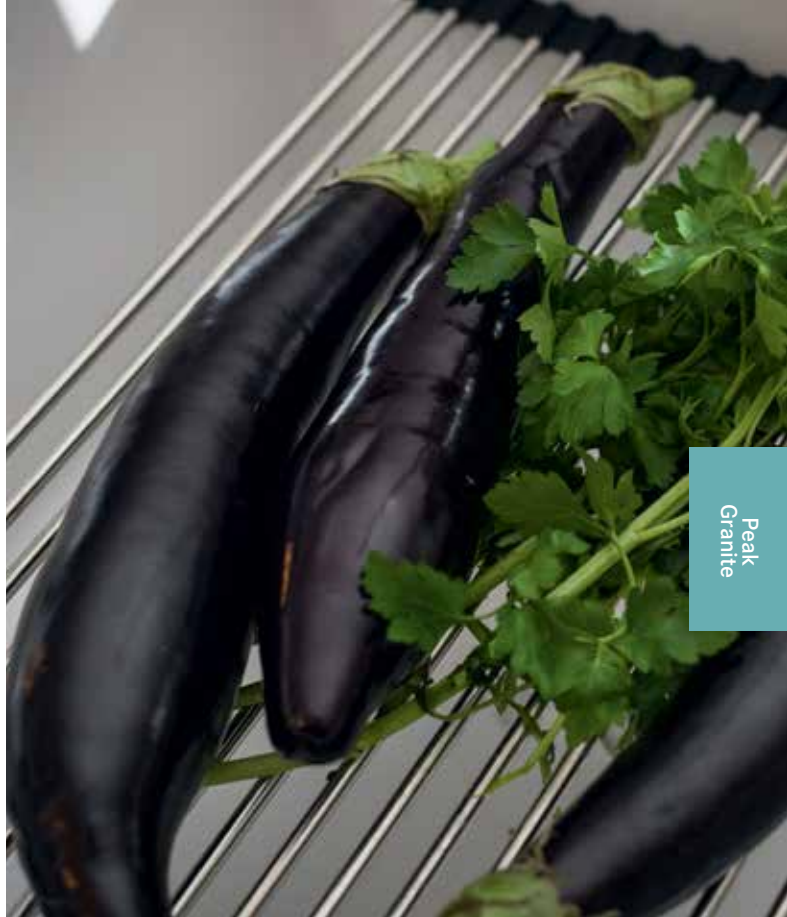

# WONDERFUL IN MANY COLORS

Fill your kitchen with beautiful color and elegant granite. There's a Franke granite sink that's perfect for you. See our Active Plus faucets on pages 170-171 for an ideal color match to your granite sink.

Faucets

# FAUCETS TO THE HIGHEST STANDARDS

Faucets

From extravagant to purist. From satin nickel to polished chrome. Whether you prefer a flexible, pull-out, or integrated water filter, the Franke faucet range meets every need in every kitchen. Your favorite Franke faucet will be the perfect match for your ideal Franke sink.

## MANUFACTURING TO FINEST STANDARDS

Outstanding design and quality components come together during the Franke manufacturing process. Strict adherence to Franke manufacturing standards in forming, finishing and final assembly achieves the exceptional quality and durability that makes a Franke faucet the most desired addition to a kitchen.

## QUALITY ASSURANCE AND CERTIFICATIONS

Franke faucets are manufactured under the supervision and testing of local and international certifying bodies, including CSA, IAPMO, ICC, and NSF. All Franke faucets meet the requirements of the Federal Safe Drinking Water Act, NSF372 and NSF61.

# WATER SAVING FEATURE

Turning the faucet handle one click will start a water conserving 50% flow. A second click of the handle brings the faucet to 100% water flow.

Franke faucets are in compliance with CalGreen, California's Green Building Standards, an initiative to reduce water usage by 20 percent in new construction projects.

Look for faucets with water saving feature as not all faucets have this feature.

# EVERY DROP IS WONDERFUL

Franke pioneered multi-tasking kitchen faucets. Today, our beautifully designed range of point-of-use faucets, which dispense hot, cold and filtered water, are considered the blueprint for faucets that go the extra step. By combining the beauty of our most stylish designs and the technologically advanced ceramic water filtration of the Franke StillPure system, we've created the perfect addition to a health-focused kitchen.

Filtration

## PURE WATER, WHERE YOU NEED IT.

Invisible to the eye and even to the tongue, contaminants, lead, toxins, industrial pollutants, pesticides and even diseases are passed through local water systems into our homes. Unfortunately, filtration pitchers don't fully filter out impurities, and bottled water creates waste. Franke StillPure delivers **delicious, pure water right from the tap.**

## STYLED FOR CONVENIENCE.

With the Franke StillPure filtration system you can choose from a full range of faucet designs to fit your style. If under-sink space is at a premium, the new **Purus filtration system**, with patented triple-filter process technology and a modern capsule-style design, fits directly onto the tap.

Like our original StillPure filter, the new StillPure **Full-Flow filter** provides fresh, pure water from the tap water but at a rapid 2.5 gpm.

## CONFIDENCE TO KNOW IT'S PURE.

Using Bluetooth® connectivity, the StillPure **filter-monitoring device** sends usage data, notifications for upcoming filter changes. All you need to do is download the StillPure app, which is available for Androids and iPhones.

Indicates: Cold Hot Hot/Cold

All faucets can accommodate at least 1-3/4" counter-top thickness. Several can accommodate up to 3". Call customer service for additional thickness information. Recommended Pressure Range: 15-75 PSI. All Franke filtration faucets have been certified to comply with NSF61 and NSF372 drinking water system component requirements. These requirements meet California Health and Safety Code requirements for low lead as well as the low lead requirements of the US Safe Drinking Water Act. Franke faucets also meet the water efficiency requirements of the California Energy Commission and the US Department of Energy.

- 10 year warranty
- 6 lbs.

**How to determine which filter to order if the replacement filter model number is not identified on the canister:**

1. Locate the serial number on your canister
2. If the serial number begins with FR then order the FRX02 filter set
3. If the serial number begins with FRC then order the FRC06, FRC07, FRC08, FRC09, FRC10 filter set

Waste  
Disposers

# WASTE DISPOSERS

Easily ridding your workspace of organic waste is only one reason waste disposers make good sense for any kitchen. Energy-efficiency, durability and features such as sound bafflers are some of the reasons to make your waste disposer a Franke.

## WHAT MAKES FRANKE DISPOSERS DIFFERENT

There's more to keeping your kitchen clean than simply removing waste. Franke integrates the antimicrobial agent Bio Shield® into the disposal's internal components to inhibit the growth of odor-causing bacteria, such as E-coli and salmonella, and mold and mildew. Our Silver Guard®\* Magnetic rim prevents metal objects, such as silverware, from falling into the disposer.

\*On selected models

SPECIFICATION GUIDE

ITEM	WARRANTY	MOTOR TYPE	POWER CORD	SHREDDER BLADE TYPE	SOUND INSULATED SHELL
FWDJ125 (1 1/4HP)	Limited Lifetime	2800 rpm Jam-Resistant DC motor	Included	Stainless	Yes
FWDJ75B (3/4HP)	10 Years	2700 rpm Jam-Resistant DC motor	Included	Stainless	Yes
FWDJ75 (3/4HP)	10 Years	2700 rpm Jam-Resistant DC motor	Included	Stainless	Yes
FWDJ50 (1/2HP)	5 Years	2600 rpm Jam-Resistant DC motor	Included	Stainless	Yes

Franke waste disposers are  certified Finer grinding for septic system compatibility in ALL models, with no additional chemicals needed.

## FWDJ125 \$509

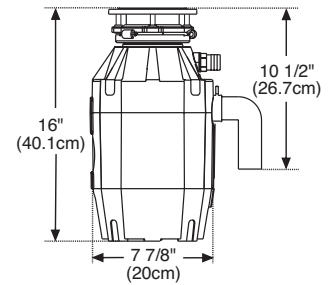

1 ¼ HP Disposer

### FEATURES AND BENEFITS

- Horsepower: 1 ¼
- Feed: Continuous
- RPM: 2800
- Silverguard®
- Warranty: Lifetime
- Bio Shield®
- Sound Insulated Shell
- Stainless Steel Grinding Chamber
- Torque Master® Balanced Grinding Systems

19 lbs.

## FWDJ75B \$529

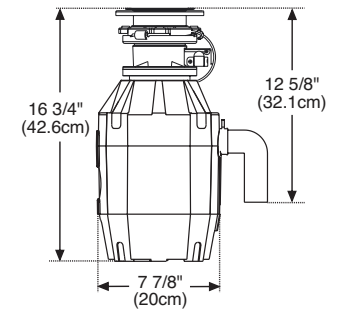

¾ HP Disposer

### FEATURES AND BENEFITS

- Horsepower: ¾
- Feed: Batch
- RPM: 2700
- Warranty: 10 Year
- Bio Shield®
- Sound Insulated Shell
- Stainless Steel Grinding Chamber
- Torque Master® Balanced Grinding Systems

18 lbs.

## FWDJ75 \$389

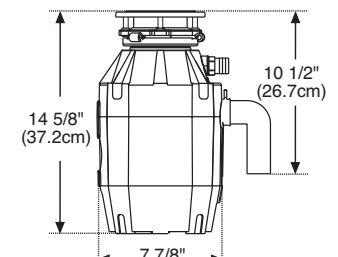

¾ HP Disposer

### FEATURES AND BENEFITS

- Horsepower: ¾
- Feed: Continuous
- RPM: 2700
- Silverguard®
- Warranty: 10 Year
- Bio Shield®
- Sound Insulated Shell
- Stainless Steel Grinding Chamber
- Torque Master® Balanced Grinding Systems

17 lbs.

## FWDJ50 \$269

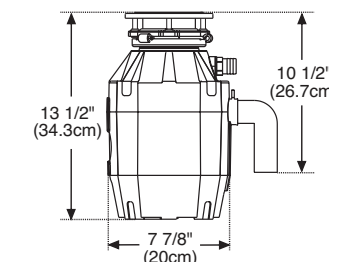

½ HP Disposer

### FEATURES AND BENEFITS

- Horsepower: ½
- Feed: Continuous
- RPM: 2600
- Warranty: 5 Year
- Bio Shield®
- Sound Insulated Shell
- Stainless Steel Grinding Chamber
- Torque Master® Balanced Grinding Systems

## YOUR LIFE

Every one of us has our own way of approaching life, be it due to culture, past experiences or simply personal style.

## YOUR EXPECTATIONS

An individual lifestyle expresses itself in different ways - it affects our wishes and expectations, our desires and our dreams.

## YOUR STYLE

The kitchen is the one place in your home where you can best express your own personal style.

## YOUR CHOICE

Franke offers you the unique opportunity to transform your kitchen into a place of living - according to your expectations. The wide range of styles will satisfy all your needs - in the end it is just a matter of choice. Your choice.

## WARRANTY

### SINKS

Franke Kindred Canada Limited warrants the quality of its stainless steel, granite and fireclay sinks to be free from manufacturing defects in material and workmanship, under normal usage for the lifetime of the sink.

### HOT & COLD FILTERED WATER

Franke Kindred Canada Limited extends the following warranties to the original purchaser of its faucets, and hot and cold dispenser systems and tanks after January 1, 2013. All other products will be covered under the prior warranty. Warranties apply only to the original owner, providing the product has been installed in accordance with our installation instructions, and used as recommended in a normal residential application. In the event of a warranty claim, the owner will be required to provide proof of purchase. For more details, please reference [www.frankecanada.com](http://www.frankecanada.com).

### FAUCETS

All faucets installed in a private residence will carry a limited lifetime warranty on all mechanical parts to be free of manufacturing defects in material and workmanship under normal usages. All chrome finishes carry a limited lifetime warranty; all other finishes are warranted for five (5) years from the original date of purchase.

### WATER DISPENSER SYSTEMS

Franke Kindred Canada Limited warrants Franke water dispenser systems to be free of manufacturing defects for a period of five (5) years from the date of purchase.

### FRANKE HOT WATER

Franke Kindred Canada Limited warrants Franke heating tanks to be free of manufacturing defects for a period of one (1) year from the date of purchase.

### FRANKE WASTE DISPOSER

Please reference page 203 for warranty information specific to each Franke Waste Disposer model.

## FRANKE SINKS

**Naming Convention Legend:**  
What the product code tells us

The first two letters designate the product

**CU** = Chef Center / Culinary Center  
**CC** = Cisterna  
**FH** = Farm House  
**KB** = Kubus  
**LR** = Laundry  
**MH** = Manor House  
**NC** = Concerto  
**OR** = Orca  
**PK** = Peak  
**PTX** = Pescara  
**PS** = Professional Series  
**PS2** = Professional Series 2.0  
**RB** = Rotondo  
**RG** = Regatta  
**TC** = Techna

The third letter designates the material from which the sink is made

**X** = Stainless Steel  
**G** = Granite  
**K** = Fireclay

The first number indicates the installation type

**1** = Undermount  
**7** = Farm House style

The second number determines the bowl configuration

**1** = Single  
**2** = 1 3/4 or Twin Bowls  
**5** = 1 1/4 Bowls  
**6** = 1 1/2 Bowls  
**7** or **3** = 3 bowl sink

**Example: KBX160**

**KB** = Kubus  
**X** = Stainless Steel  
**1** = Undermount sink  
**6** = 1 1/2 Bowl configuration  
**0** = No drainboard
