CLEANING RECOMMENDATION FOR HANSGROHE PRODUCTS

Modern bathroom faucets, kitchen faucets and shower products are made from different materials to comply with the needs of the market with regard to design and functionality. To avoid damage to the product, it is necessary to take proper care of it.

FOR BEST RESULTS:

- / Prevent the buildup of mineral scale and /or soap residue by cleaning your Hansgrohe product(s) when needed.
- / Select a cleaning agent specifically intended for the type of product.
- / DO NOT use these types of cleaners as they will cause damage to your Hansgrohe product:
 - Any cleaning agent containing hydrochloric acid, formic acid, lye, or acetic acid.
 - Abrasive cleaning powders, pads, or brushes.
 - Steam cleaners.
 - “No rinse” cleaning agents.
- / ALWAYS follow the instructions provided by the manufacturer of the cleaning agent.
- / DO NOT mix cleaning agents, unless directed by the manufacturer.
- / DO NOT spray cleaners directly onto the product as drops could enter openings and gaps and cause damage. When using spray cleaners, spray the cleaner onto a soft cloth or sponge.
- / ALWAYS rinse your Hansgrohe product thoroughly with clear water and polish dry with a soft cloth after cleaning.

IMPORTANT

- / Residue from soaps and shampoos can cause damage. Rinse the product with clean water after each use.
- / Residue from basin/tub/tile cleaner can cause damage to faucets and fittings. Immediately rinse any overspray from the Hansgrohe product.
- / DO NOT store any cleaning agents under your Hansgrohe product, such as in a vanity unit, as the fumes may damage the product.
- / DAMAGE TO THE PRODUCT CAUSED BY IMPROPER CARE OR THE USE OF IMPROPER CLEANING AGENTS IS NOT COVERED BY THE WARRANTY.
- / IF A COMPONENT OF THE PRODUCT IS DAMAGED, REPLACE IT TO REDUCE THE RISK OF PERSONAL INJURY, PROPERTY DAMAGE OR PRODUCT FAILURE.

CONSEIL DE NETTOYAGE POUR LES PRODUITS HANSGROHE

Les robinets pour les salles de bains et les cuisines modernes ainsi que les produits récents pour les douches se composent de matériaux différents afin de satisfaire aux besoins du marché en termes de conception et de fonctionnalité. Afin d'éviter d'endommager le produit, il est nécessaire d'en prendre soin.

POUR DE MEILLEURS RÉSULTATS :

- / Empêchez l'accumulation de tarte et/ou de résidu de savon en nettoyant votre produit Hansgrohe lorsque c'est nécessaire.
- / Sélectionnez un produit de nettoyage spécifiquement prévu pour ce type de produit.
- / N'UTILISEZ PAS ces types de nettoyeurs car ils peuvent endommager votre produit Hansgrohe :
 - Tout produit de nettoyage contenant de l'acide chlorhydrique, de l'acide formique, de la potasse ou de l'acide acétique.
 - Les poudres de nettoyage, les tampons ou les brosses abrasives.
 - Les nettoyeurs à vapeur.
 - Les produits de nettoyage « sans rinçage ».
- / Ne mélangez pas les produits de nettoyage, à moins que cela soit indiqué par le fabricant.
- / Ne pulvérisez pas les nettoyeurs directement sur le produit car des gouttes pourraient entrer dans les ouvertures et les fentes et causer des dommages. Lorsque vous utilisez des nettoyeurs par pulvérisation, pulvérisez le nettoyant sur un chiffon ou une éponge douce.
- / Après le nettoyage rincer abondamment à l'eau claire pour éliminer intégralement les restes de détergent.

IMPORTANT

- / Les residus de produits pour le corps comme les savons liquides, shampooings, gels de douche, teintures pour cheveux, parfums, apres-rasage et vernis à ongles peuvent causer des deteriorations. Rincez le produit avec de l'eau propre après chaque utilisation.
- / Le résidu provenant des nettoyeurs pour cuvette/baignoire/carrelage peut endommager les robinets et les raccords de tuyauterie. Rincez immédiatement toute surpulvérisation sur le produit Hansgrohe.
- / De meme, il est interdit de stocker des detergents ou des produits chimiques sous les produits, par ex. dans un meuble sous lavabo, car les vapeurs qui s'en degagent risquent d'abimer les produits.
- / LES DOMMAGES AU PRODUIT CAUSÉS PAR UN MAUVAIS ENTRETIEN OU PAR L'UTILISATION DE PRODUITS DE NETTOYAGE INADÉQUATS NE SONT PAS COUVERTS PAR LA GARANTIE.
- / SI UN COMPOSANT DU PRODUIT EST ENDOMMAGÉ, REMPLACEZ-LE POUR RÉDUIRE LES RISQUES DE BLESSURES, DE DOMMAGES MATÉRIELS OU DE DÉFAILLANCES DU PRODUIT.
